Full description

Fantastic Zeta Elle inflatable boat produced by the Merli Nautica shipyard, the result of collaboration with the T00 Design studio of the architect Marco Casali.

The two fiberglass "wings", measuring 3x1.5 metres, in addition to acting as bathing platforms, increase the walkable surface of the deck surface and eliminate the annoying rolling at anchor.

On board, then, there is space for a large sundeck at the bow and one at the stern as well as a driving console with a modern but also functional design thanks to the driver's seat which incorporates a kitchen cabinet sheltered by a carbon top. The generous volumes of the deckhouse also guarantee very livable internal spaces.
